The PPI Ignite Network believes that, in order to improve public and patient involvement (PPI) in health-related research, there must be a shared understanding of the values and principles that underpin the work. We invite all researchers, PPI contributors, institutions and funders to consider how to uphold these values and principles when engaging in or supporting PPI activity.

**Transparency**
The need for clear, open, mutual communication between the research team and PPI partners about research decisions and progress. We want transparency in developing a clear, shared understanding of aims, roles, processes and other terms of involvement.

**Respect**
The recognition of the roles, knowledge, insights, experiences, strengths, limitations and contributions across the research team and PPI partners and throughout the research lifecycle. We want to benefit from the diversity of the team and partners, and work together effectively and enjoyably.

**Empowerment & Power Sharing**
The inclusion as early as possible in funding decisions, strategy and decision-making, the co-design and co-production of research. We want a wide range of involvement strategies to ensure that this happens.

**Trust**
The building of reciprocal trust; this takes time to develop, is relationship based and needs to be consistently worked on. We want everybody’s opinion to be fully heard and we want confidentiality to be negotiated and respected.

**Collaboration & Partnership**
The inclusion of PPI partners throughout the research lifecycle with commitments and expectations agreed from the outset, as much as possible. We want true partnership where all contributions are valued and respected equally.

**Flexibility**
The recognition of the time and other commitments involved in PPI and that this is acted upon in the research plan. We want to co-design appropriate changes and responses to the experiences and to the views of PPI partners.

**Equity & Inclusion**
The active identification and removal of barriers and creation of entry points throughout the research lifecycle. We want real co-design and partnership to take place that values equally people’s diversity of opinions, experiences, abilities, backgrounds and expertise.
**The development of the Values & Principles**

These values were developed through a series of online collective intelligence workshops that took place during 2021/2022. Led by Prof Mary McCarron, Prof Philip McCallion, Sarah Bowman and Michael Foley from the Trinity PPI Ignite Office on behalf of the PPI Ignite Network, the workshop participants were nominated by PPI Ignite Network members.

**Workshop Participants**

We acknowledge the invaluable input of the workshop participants, who were either PPI contributors or PPI-active researchers, who shared their experiences of PPI and negotiated a set of values and principles that could guide improvement of PPI activity.

**Workshop participants were:**

Laura Brady; Aoife Brennan; Melody Buckley; Michelle Connolly; Naomi Donaldson; Jennifer Duggan; Sarah-Marie Feighan; Michelle Flood; Kate Frazer; Carmel Geoghegan; Meghan Gilfoyle; Stacey Grealis; Agnes Higgins; Zoe Hughes; Sinéad Hynes; Robert Joyce; Cameron Keighron; Siófra Kelleher; James Larkin; Kerry Lawless; Anne Lawlor; Manjula Manikandan; Molly Manning; Anne-Marie Martin; Ciara Molloy; Maura Moloney; Marian O’Mahoney; Ciara O’Reilly; Eileen O’Sullivan; Lydia O’Sullivan; Eilis O’Toole; Anna Papyan; Fiona Riordan; Nuala Ryan; Stephanie Skeffington; Clodagh Toomey; Niki Warner.

Facilitation was provided by PPI Ignite Network members:

Abhisweta Bhattacharjee; Sarah Bowman; Elaine Byrne; Michael Foley; Sarah Fox; Avril Kennan; Lorna Kerin; Virginia Minogue; Derick Mitchell.

---

**This work is funded by the Health Research Board and the Irish Research Council, with co-funding from the seven Universities at the centre of the PPI Ignite Network**

The PPI Ignite Network promotes excellence and inspires innovation in public and patient involvement (PPI) in health and social care research in Ireland.
